

Suggested Fee Scale per session

I believe that everyone needs a mentor and money should not be the deciding factor for people to get the help they need. To that end, I have instituted a suggested fee scale. If you make at least the annual income on the left, you should be able to comfortably afford the fee on the right. However, only you can make that call. You will let me know how much you will be paying for each session.

Every two months we will do an evaluation of your progress and you can change the fee at that time as your income adjusts. You will let me know.

The minimum is a 2 session month. With it you get unlimited text and email access to me.

Annual Income	Suggested Fee per session
< \$30,000	\$ 140
\$30,000 - \$40,000	\$ 160
\$40,000 - \$55,000	\$ 180
\$55,000 - \$70,000	\$ 200
\$70,000 - \$85,000	\$ 220
\$85,000 - \$100,000	\$ 240
\$100,000 >	\$ 260

Best,
Christina
